

## Demand Graph Practice

Directions: You may print this page and write directly on it or create your answers on binder paper. You will take a picture and upload to the Demand Graph Practice Assignment when you are done.

1. Create a demand curve for sweatshirts using the following demand schedule:

Price	Quantity Demanded Per Year
10	400
20	320
30	240
40	160
50	80
60	5

2. Think about the sweatshirt market. Explain one potential reason there could be a shift to the right on the curve. In your explanation, make sure to include the shifter. Yes, complete answers with punctuation and capitalization do matter.

3. Think about the sweatshirt market. Explain one potential reason there could be a shift to the left on the curve. In your explanation, make sure to include the shifter. Yes, complete answers with punctuation and capitalization do matter.
